With this advice letter, SJWC requests authorization to implement surcharges to offset the increases to purchased potable water charges, the ground water extraction fee, and purchased recycled water charges that will be implemented by SJWC's water wholesalers effective July 1, 2018, and to update associated special conditions of Schedules No. 1 and 1C for the agricultural discount.

These tariffs are submitted pursuant to General Orders (GO) No. 96-B Water Industry Rules 7.3.1(7) and 8.4. This advice letter is designated as a Tier I Advice Letter. SJWC requests that the surcharges become effective on July 1, 2018.

The present rates for SJWC became effective March 22, 2018, by Advice Letter No. (AL) 518. This request takes into account the pending rate decrease proposed in AL 522A currently pending before the Commission but anticipated to become effective on July 1, 2018.

Background

At its May 8, 2018 meeting, the Santa Clara Valley Water District's (SCVWD) Board of Directors formally adopted water rate increases for the 2018-2019 fiscal year, raising the purchased water rate for contract treated potable water by \$114 from \$1,275 per acre ft. (AF) to \$1,389 per AF which includes the SCVWD's treated water surcharge of \$100/AF, ($\$1,289/\text{AF} + \$100/\text{AF} = \$1,389/\text{AF}$) and the ground water production charge rate by \$114 from \$1,175 to \$1,289 per AF (**Attachment A**). The treated water surcharge remains \$100/AF. These increased charges are scheduled to become effective July 1, 2018.

SCVWD's ground water charge for agricultural water will increase to \$27.02/AF which affects the agricultural discount provided by SCVWD and passed through in SJWC's tariffs. The current discount is \$2.6398/ccf ($\$1,175/\text{AF} - \$25.09/\text{AF} = \$1,149.91/\text{AF} = \$2.6398/\text{ccf}$). The discount effective July 1, 2018, will therefore increase to \$2.8971/ccf ($\$1,289/\text{AF} - \$27.02/\text{AF} = \$1,261.98/\text{AF} = \$2.8971/\text{ccf}$) (**Attachment A**). This updated discount is reflected as Special Conditions in SJWC's tariff for Schedule No. 1 General Metered Service, Schedule No. 1B General Metered Service with Automatic Fire Sprinkler System and for Schedule No. 1C General Metered Service Mountain District.

Changes to the rate for untreated water also affect the rate for purchased recycled water. South Bay Water Recycling, SJWC's wholesale recycled water provider, indexes recycled water wholesale rates to the rates charged by the SCVWD for untreated water, with appropriate discounts for irrigation, industrial, or agricultural use. The recycled water discount remains at \$105 for irrigation, industrial, and agricultural uses. Effective July 1, 2018, wholesale recycled water rates will be increased by \$114 per AF from \$1,070 to \$1,184 per AF (**Attachment A**).

The following total increase in costs, as detailed in **Attachment B**, is requested to be offset in a surcharge on all potable and raw water use:

Increase in Purchased Water	8,047,010
Increase in Ground Water Charge	5,403,392
Increase in Purchased Recycled Water	227,697
Increase in Taxes and Uncollectibles	53,481
Total Increase in Costs	13,731,580

As previously directed by the Commission's Water Division, the requested offset rate change will be added as separate surcharges and will not be included into the base quantity rate. Surcharges of \$0.1621 per ccf for Purchased Water and \$0.1088 per ccf for Ground Water Production Charges will be charged on all potable water usage. Surcharges of \$0.2627 per ccf for Purchased Recycled Water will be charged on all recycled water usage. These surcharges are calculated in Attachment B and are derived by dividing the increases in costs for Purchased Water, Groundwater Production Charges, and Purchased Recycled Water by the adopted potable and recycled water usage. The requested offset surcharges will result in a total increase of 3.75% in metered revenue, while the bill for the typical customer using 11 ccf per month will increase \$2.98 per month, or approximately 3.61%. All surcharge and bill comparison calculations are provided in **Attachment B**.

Public notice of the offset rate adjustment will be completed by placing a notice (**Attachment C**) in the San Jose Mercury News as soon as possible. Proof of publication will be submitted to the Commission when the notification has been completed. In compliance with Paragraph 4.3 of General Order 96-B, a copy of this advice letter has been mailed to all interested and affected parties as detailed in **Attachment D**.

Effective Date

SJWC requests that the updated tariff sheets become effective July 1, 2018.
