**San Jose  
Water  
Company**

110 W. Taylor Street  
San Jose, CA 95110-2131

July 26, 2018

California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, CA 94102

Advice Letter No. 524

San Jose Water Company (U-168-W) (SJWC) hereby transmits for filing the following changes in tariff schedules applicable to its service area and which are attached hereto:

<u>Cal. P.U.C Sheet No.</u>	<u>Title of Sheet</u>	<u>Cancelling Cal. P.U.C. Sheet No.</u>
1924-W	Schedule No. 1 General Metered Service	1908-W
1925-W	Schedule No. 1B General Metered Service with Automatic Fire Sprinkler System	1909-W
1926-W	Schedule No. 1C General Metered Service with Mountain District	1910-W
1927-W	Schedule No. 4 Private Fire Service	1911-W
1928-W	Schedule RW Raw Water Metered Service	1912-W
1929-W	Schedule No. RCW Recycled Water Metered Service	1913-W
1930-W	Table of Contents	1923-W

These tariffs are submitted pursuant to General Order Nos. 96-B, and pursuant to the authority established by the California Public Utilities Commission (Commission) in Decision No. (D.) 13-07-028, dated July 25, 2013. This advice letter is designated a Tier II Advice Letter consistent with General Order 96-B, 7.3.3 (8) and Ordering Paragraph (OP) No. 3 of D.13-07-028. Public notice is not required as notice was completed at the time of SJWC's filing of Application No. (A.) 10-09-019: Application of SJWC for Approval of Cost Recovery for Upgrading the Montevina Water Treatment Plant (MWTP).

With this advice letter, SJWC requests authorization to increase revenue requirement by \$18,989,947 via a rate base offset for plant additions related to the MWTP Upgrade Project (Montevina Project).

The designation of this advice letter as Tier II is made pursuant to General Order 96-B, Industry Rule 7.3.3 (8), which provides that "a rate base offset will be disposed of under Tier 2 when staff determines that:

- i. The Rate base offset was previously approved by the Commission in a decision or resolution;
- ii. The project scope is consistent with what the Commission approved; and
- iii. The Commission approval included a budget cap and the rate base offset request is at or below the budget cap."

OP No. 3 of D.13-07-028 (Attachment A) states in part that:

*"3. San Jose Water Company (Company) is authorized to file annual Tier 2 advice letters to include in rate base properly recorded costs of the Montevina Upgrade Project. Until moved to rate base, such costs shall accrue interest during construction on a monthly basis at the Company's actual weighted average cost of debt, including short term debt, and capitalized interest shall not be compounded. The total cost for the Montevina Upgrade project included a 10% design contingency with a total project cost estimate of \$62 million. This \$62 million construction cost estimate will be treated as an advice letter cap for ratemaking purposes.... "*

This advice letter filing meets the requirements set forth in General Order 96-B, Industry Rule 7.3.3 (8) in that:

- i. The rate base offset was previously approved by the Commission in D.13-07-028, OP No.3;
- ii. The project scope (upgrades to the MWTP) is consistent with what the Commission approved; and
- iii. The Commission approval included a budget cap (\$62 million) and the total rate base offset as of 12/31/2017 is \$40,368,333 comprised of \$669,458 authorized via Advice Letter (AL) 457, \$1,498,738 authorized via AL 476, \$9,053,138 authorized via AL 483/489, and \$29,147,000 authorized via AL 506 is at or below this budget cap. With this request, the total rate base offset will be \$59,358,280.

### Background

SJWC filed A.10-09-019, seeking Commission approval for cost recovery for upgrading the MWTP, in September 2010. In conjunction with that Application, SJWC met all of the necessary noticing requirements as provided for in the Commission's Rules of Practice and Procedure, Rule No. 3.2. In March 2013, SJWC and the Commission's Division of Ratepayer Advocates (now Office of Ratepayer Advocates) submitted a Joint Motion for Adoption of the Settlement Agreement. The provisions of the Agreement are outlined in OP No. 3 of D.13-07-028 above. On July 25, 2013, the Commission issued D.13-07-028 approving the settlement agreement.

In D.13-07-028, the Commission authorized SJWC to file annual Tier 2 advice letters to recover in rates capital improvements associated with the Montevina Project. This advice letter is the fifth of these Tier 2 advice letters associated with the Montevina Project. The first, AL 457, covered work performed in 2013 with a ratebase addition of \$669,458. The second, AL 476, covered work performed in 2014 with a ratebase addition of \$1,498,738. The third, AL 483/489, covered work performed in 2015 with a ratebase addition of \$9,053,138. The fourth, AL 506, covered work performed in 2016 with a ratebase addition of \$29,147,000. All of these prior advice letters were approved.

AL 524 covers work performed during calendar year 2017. Subsequent advice letters, covering work performed during the calendar year previous to each advice letter filing, will be filed on an annual basis until the project is completed. A description of the work completed in 2017 is provided below.

### Montevina Project – Work Completed During Calendar Year 2017

The majority of construction, equipment assembly and installation was completed throughout 2017 in accordance with the Design Build Agreement between SJWC and HDR, Inc. at both the main treatment plant site and the solids handling site. Major civil construction aspects of work were completed that include erection of pre-engineered steel frame structures for the replacement administration building and the new membrane building. Significant material and equipment handling continued within the restrictive site among multiple trades and a variety of activities. Site constraints continued to challenge the project schedule requiring activities to be carefully orchestrated to minimize delays.

Major equipment and materials were assembled and installed such as mechanical screw presses, pumps, strainers, chemical storage and dosing systems, and the filter racks and membrane modules. Considerable progress with mechanical, electrical and plumbing trade work as well as interior building finishes were made. Construction of the pre-engineered structural steel building

was completed. This allowed for mechanical equipment as well as electrical infrastructure to be installed within a weather tight envelope. The new electrical service from PG&E was provided.

Pretreatment plate settlers, motor actuated slide gates valves and sludge collection equipment was installed. Seismic improvements to existing structural element were completed. Construction of the equalization tank between the clarifier basins and the membrane feed pumps was completed. Major piping within the membrane building was assembled and pressure tested. Membrane modules and the membrane treatment skids were completed, tested and placed into service. The membrane clean in place chemical waste treatment reverse osmosis system was installed. A variety of permits were substantially signed off to allow for operations. Safety improvements along and within Highway 17 were substantially completed.

Significant work was also achieved at the solids handling facility, which is on the opposite side of Highway 17. Major sludge thickening and dewatering equipment like the sludge screw presses and appurtenant mechanical equipment were positioned and assembled for the improvements at the solids handling site. Associated yard piping was completed at the solids handling site and also facilitated the completion of the paving improvements.

Development of the plant's operational Supervisory Control and Data Acquisition (SCADA) programming and human machine interface is substantially completed. The operations and maintenance plan for the plant was also finalized with the Division of Drinking Water (DDW) to facilitate the approval of DDW's permit to operate.

With major equipment and process operations installed and tested, detailed system control testing was performed. Chemical storage and conveyance systems were installed, tested and operated.

From January through November 2017, the plant was shutdown to allow for necessary construction, equipment and subsystem checkout and testing activities to be completed. Beginning December 2017, the water treatment plant construction, testing and operations was sufficiently advanced such that regulatory approval from DDW was secured to treat and deliver water to the distribution system (Attachment B).

The summary of costs for the work performed as of 12/31/2017 can be found in Attachment C. Total recorded costs for this period, including capitalized interest, were \$18,989,947.

#### Capitalized Interest Calculation

As noted above, D.13-07-028 OP No.3 provides that "Until moved to rate base, (Project) costs shall accrue interest during construction on a monthly basis at the Company's actual weighted average cost of debt, including short-term debt, and capitalized interest shall not be compounded." Capitalized interest calculations are provided in Attachment D.

### Rate Calculation and Bill Comparison

Current authorized rates for 2018 became effective on July 1, 2018 via ALs 522 and 523 (Attachment E). The total revenue requirement impact for this capital addition is \$3,154,700 or about .83% of SJWC's anticipated authorized revenue for 2018 (Attachment F & G). SJWC seeks to recover 30%, or \$946,410 of the revenue through the service charge component and the remaining 70%, or \$2,208,290 through the quantity rate component pursuant to SJWC's rate design approved in D.14-08-006. As a result of this rate calculation, the service charge for a standard 3/4-inch meter will increase by \$0.25 per month from \$25.03 to \$25.28. The uniform quantity charge will increase from \$4.6837 per ccf to \$4.72750 per ccf. SJWC's residential conservation rates have been calculated using the methodology adopted in D.14-08-006, applying 90% of the uniform quantity rate to Tier I, 100% of the uniform rate to Tier II and 110% of the uniform quantity rate to Tier III. The Tier I rate charge will increase from \$4.21533 per ccf to \$4.25475 per ccf. The Tier II rate charge will increase from \$4.6837 per ccf to \$4.72750 per ccf. The Tier III rate charge will increase from \$5.15207 per ccf to \$5.20025 per ccf. The rate calculations are set forth in Attachment G. As a result of this rate change, the bill for a residential customer using 11 ccf per month will increase by \$0.71 or .83% per month (Attachment H).

### Effective Date

This advice letter is designated as Tier II with an effective date 30 days from date of filing, on or about August 25, 2018.

### Protests and Responses

Anyone may respond to or protest this advice letter. A response does not oppose the filing but presents information that may prove useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds may include the following:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding;
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or

- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue  
San Francisco, CA 94102  
water\_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy of the protest by mail to us, addressed to:

Regulatory Affairs  
San Jose Water Company  
110 West Taylor Street  
San Jose, CA 95110  
Fax 408.279.7934  
regulatoryaffairs@sjwater.com.

The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Public notice of this filing is not required as notice was provided upon the filing of A.10-09-019. In compliance with Paragraph 4.3 of General Order 96-B, a copy of this advice letter has been mailed to all interested and affected parties as detailed in Attachment I.

This filing will not cause the withdrawal of service, nor conflict with other schedules or rules.

Very truly yours,

JOHN TANG  
Vice President of Regulatory Affairs

Schedule No. 1

GENERAL METERED SERVICE

APPLICABILITY

Applicable to general metered water service.

TERRITORY

Portions of Cupertino, San Jose, and Santa Clara, and in Campbell, Los Gatos, Monte Sereno, and Saratoga and in contiguous territory in the County of Santa Clara.

RATES

Quantity Rate Per 100 cu. ft. (Ccf):

Residential Customers with 5/8 x 3/4-inch, 3/4-inch, 1-inch, 1 1/2-inch or 2-inch meter

For Total Monthly Usage from 0 to 3 Ccf.	\$4.25475	(I)
For Total Monthly Usage from 4 to 18 Ccf.	\$4.72750	I
For Total Monthly Usage over 18 Ccf.	\$5.20030	(I)

All Other Customers

For all water delivered, per 100 cu. ft.	\$4.72750	(I)
--	-----------	-----

Service Charges:

Per Meter Per Month

All Customers:

For 5/8 x 3/4-inch meter .....	\$ 25.28	(I)
For 3/4-inch meter .....	\$ 25.28	I
For 1-inch meter .....	\$ 42.10	I
For 1-1/2-inch meter .....	\$ 84.24	I
For 2-inch meter .....	\$ 134.81	I
For 3-inch meter .....	\$ 252.73	I
For 4-inch meter .....	\$ 421.22	I
For 6-inch meter .....	\$ 842.52	I
For 8-inch meter .....	\$ 1348.05	I
For 10-inch meter .....	\$ 1937.85	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rate.

PRIVATE FIRE SERVICE

APPLICABILITY

Applicable to all water service furnished to privately owned fire protection systems.

TERRITORY

Portions of Cupertino, San Jose, and Santa Clara, and in Campbell, Los Gatos, Monte Sereno, and Saratoga and in contiguous territory in the County of Santa Clara.

RATES

	Per Service Connection Per Month	
For each 2-inch service .....	\$25.60	(l)
For each 3-inch service .....	38.38	
For each 4-inch service .....	51.18	
For each 6-inch service .....	76.79	
For each 8-inch service .....	102.35	
For each 10-inch service .....	127.95	
For each 12-inch service .....	153.54	(l)

SPECIAL CONDITIONS

1. The fire protection service connection shall be installed by the utility and and the cost paid by the applicant. Such payment shall not be subject to refund. The facilities paid for by the applicant shall be the sole property of the applicant.
2. If a distribution main of adequate size to serve a private fire protection system, in addition to all other normal service, does not exist in the street or alley adjacent to the premises to be served, then a service main from the nearest existing main of adequate capacity shall then be installed by the utility and the cost paid by applicant. Such payment shall not be subject to refund.
3. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction, are installed according to specifications of the utility, and are maintained to the satisfaction of the utility. The utility may install the standard detector type meter approved by the Board of Fire Underwriters for protection against theft, leakage or waste of water and the cost paid by the applicant. Such payment shall not be subject to refund.

RECYCLED WATER METERED SERVICE

APPLICABILITY

Applicable to all recycled water metered service.

TERRITORY

Portions of Cupertino, San Jose, and Santa Clara, and in Campbell, Los Gatos, Monte Sereno, and Saratoga and in contiguous territory in the County of Santa Clara.

RATES

Quantity Rate:

Currently effective quantity rate as reflected in "*Schedule No. 1, General Metered Service*" less the treated water surcharge currently added to potable deliveries from the Santa Clara Valley Water District and less any applicable discount from the South Bay Water Recycling Program.

Service Charges:

Currently effective monthly service charge for the applicable meter size as reflected in "*Schedule No. 1, General Metered Service*".

SPECIAL CONDITIONS

1. For the purposes of this tariff a well user is defined as a customer of the Santa Clara Valley Water District who procures his/her non-potable supply from an on-site well as of the first effective date of this tariff. The service charge for well users will be in accordance with the following schedule:

<u>Meter Size</u>	<u>Per Meter Per Month</u>	
2-inch	\$31.43	(I)
3-inch	\$41.91	I
4-inch	\$47.14	I
6-inch	\$78.59	I
8-inch	\$94.30	I
10-inch	\$146.69	(I)

The monthly service charge will change in an amount equal to changes in the monthly service charge for similarly sized meters under "*Schedule No. 1, General Metered Service*". In addition to the service charge, such customers will be charged for the quantity of recycled water used at that site in the same amount billed to San Jose Water Company by the South Bay Water Recycling Program.

Resolution No.                     

TITLE

Schedule No. RW

RAW WATER SERVICE

APPLICABILITY

Applicable to raw water metered service.

TERRITORY

Portions of Cupertino, San Jose, and Santa Clara, and in Campbell, Los Gatos, Monte Sereno, and Saratoga and in contiguous territory in the County of Santa Clara.

RATES

Quantity Rate:			
Per 100 cu. ft.	.....	\$4.5079	(I)

Service Charges:		Per Meter Per Month	
------------------	--	---------------------	--

For 5/8 x 3/4-inch meter	.....	\$ 25.28	(I)
For 3/4-inch meter	.....	\$ 25.28	
For 1-inch meter	.....	\$ 42.10	
For 1-1/2-inch meter	.....	\$ 84.24	
For 2-inch meter	.....	\$ 134.81	
For 3-inch meter	.....	\$ 252.73	
For 4-inch meter	.....	\$ 421.22	
For 6-inch meter	.....	\$ 842.52	
For 8-inch meter	.....	\$ 1348.05	
For 10-inch meter	.....	\$ 1937.85	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rate.

SPECIAL CONDITIONS

1. The customer is responsible for notice of and compliance with all local, state, and federal rules and regulations that apply from time to time to the use of raw water, as defined in San Jose Water Company's Rule 1.
2. The customer must provide and/or contribute all facilities needed to transport the water from its source to the customer's point of service in accordance with the utility's Rule 15.
